Part III: Detailed Office Action

Restriction Requirement:

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1, 3, 5 and 7, drawn to assays involving determination of expression levels,
classified in class 435, subclass 6.
 - II. Claims 2, 4, 6 and 8, drawn to assays involving determination of protein activity,
classified in class 435, subclass 7.1, for example, or dependent upon species.
 - III. Claims 9-11, drawn to methods of treatment or modulation of FSH influenced
process or response, classification dependent upon species.

The inventions are distinct, each from the other because:

The methods of Inventions I -III are separate and distinct, wherein each has different starting and ending points, involves different method steps, and uses or produces distinct products or results. Accordingly, each requires separate search, and restriction is proper.

2. **Regardless** of which of the above inventions is elected, further restriction is required under 35 U.S.C. 121:

- A. One specific gene selected from the 374 genes listed in Tables 1-3 must be elected.

The inventions are distinct, each from the other because of the following reasons:

Although there are no provisions under the section for "Relationship of Inventions" in M.P.E.P. § 806.05 for inventive groups that are directed to methods of using *different* products, restriction is deemed to be proper because these methods constitute patentably distinct inventions for the following reasons. Each of genes is unique and separately patentable, requiring a unique search of the prior art. Searching all of the genes in a single patent application would constitute an undue search burden on the examiner and the USPTO's resources because of the non-coextensive nature of these searches.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5 **In order to be fully responsive, Applicant must elect one from Groups I - III, and one from Group A to be examined even though the requirement is traversed. Applicant is advised that neither I - III nor A are species election requirements; rather, each of I - III, and A is a restriction requirement.**

10 **Advisory Information:**

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Lorraine M. Spector, whose telephone number is (703) 308-1793. Dr. Spector can normally be reached Monday through Friday, 9:00 A.M. to 5:30 P.M.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Dr. Gary L. Kunz, at (703)308-4623.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist at telephone number (703) 308-0196.

Certain papers related to this application may be submitted to Group 1800 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1 (CM1). The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 C.F.R. § 1.6(d)). NOTE: If Applicant *does* submit a paper by fax, the original signed copy should be retained by applicant or applicant's representative. NO DUPLICATE COPIES SHOULD BE SUBMITTED so as to avoid the processing of duplicate papers in the Office.

Official papers filed by fax should be directed to (703) 872-9306 (before final rejection) or (703)872-9307 (after final). Faxed draft or informal communications with the examiner should be directed to (703) 746-5228.
